May 11, 2007

Dear Ms. Dortch:

I am writing a Request for Review of a decision that was previously made by the USAAC. Please refer to CC Docket No. 02-6. I am appealing the USAAC's decision to deny funding for the 2006-07 school year.

The application in question is Form 471, Application number 500106.

The applicant name is West Side Montessori Center.

The billed entity number is 47001.

The funding request number is 1376124.

The USAAC believes that I did not have a Technology Plan in place when filing the Form 470 on October 4, 2005. I did in fact have a Technology Plan in place, which was first written and approved on June 27, 2003. The new date on my Technology Plan was for the latest review and re-write of the plan, which was June 27, 2006. The USAAC requires that the Technology Plan be reviewed, updated and re-approved every three years. Therefore, I did have a plan in place on October 4, 2005, when I signed the Form 470 stating that as a fact. Then, when the USAAC asked to see the plan following the filing of Form 486 on July 12, 2006, I submitted my newly approved plan with the new approval date of June 27, 2006. That is when they believe that my Technology Plan was written, even though I had already submitted a plan and approved the plan to them 3 years earlier.

Could you please help me to resolve this misunderstanding? We do not get a large amount of money from the E-rate program, but we do rely on those monies to maintain our technology program yearly.

I can be reached at the above address, phone number: 419.843.5703, and email: afansler@wsmt Toledo.org. Thank you very much.

Sincerely,

A handwritten signature in cursive script that reads "Andrea Fansler".

Andrea Fansler, Technology Coordinator
